

I am writing you as a concern for the LPFM stations having priority over other FM stations. I currently listen to K-LOVE which is of great value to our community in Tucson. This station has positive music for our young listeners and adults as well. With so much trash in the media especially on the radio we need an alternative station that K-LOVE provides to reach out to listeners with a possitive message. If this action is taken to bump K-LOVE off the airways we would indeed suffer the consequences. We, as a society, have suffered our youth to listen to music that is negative and harmful to themselves and there community, K-LOVE as made a diffence in changing the mindset the has been so destructive. Please consider the consequences of this decision.

Thank you,  
Peggy Arias  
A concerned listener of K-LOVE
